

PAA TIP OF THE WEEK

BY: ANOUSHKA MARIWALA '21 AB

FINDING SUMMER OPPORTUNITIES!

Now is a great time to familiarize yourself with summer opportunities, both at Princeton and beyond. Here are a couple to get you started!

Internships

- [Princeton International Internship Program \(IIP\)](#) gives you the opportunity to work with a specialized company or research university abroad for 8 weeks, in a wide range of fields!
- [Princeton Internships in Civic Service \(PICS\)](#) are social work-oriented programs to grow leadership and people skills, sending students to various communities within the U.S. to work in various fields.
- [Pace Center for Civic Engagement](#) presents opportunities to respond thoughtfully to civic problems via direct volunteer service, civic-action break trips, social entrepreneurship, political action, public service internships, fellowships and volunteer teaching and tutoring.
- [Handshake](#) is a job search site that connects you to a broad range of companies through job postings, on-campus event alerts and more. New internships are posted every day so be sure to check it frequently!

Research and Academic Opportunities

- [Global Seminars and Princeton Study Abroad Programs](#) allow students to participate in a culture and language immersion course for Princeton credit!
- [Reach out to Professors!](#) Most departments have websites that allow you to easily read about each professor's research. Choose professors you might be interested in contacting, and send an email to ask about potential summer openings.
- Check out opportunities at [Princeton Environmental Institute](#), [Andlinger Center for Energy and the Environment Summer Internships](#), and [Keller Center for Innovation in Engineering Education](#)

Fellowships and Awards

- [Streicker International Fellows Fund](#) is designed for students interested in carrying out substantive research or educational projects while immersed in a foreign culture.
- [Martin Dale '53 Award \(sophomores\)](#): provide financial support to enable pursuit of worthy projects that provide important opportunities for personal growth, independence, creativity, and leadership skills in an area of special interest.

Additionally, please check out the **detailed "Summer Opportunities 2020" email sent by Dr. Andrews on 11/11**. You should also consider scheduling an appointment at the [Center for Career Development](#) and dropping into one of their workshops! Good luck!

**For additional academic support, check in with your PAAs
or have a chat with Dr. Andrews**
